## EDUCATION

**MAE FAH LUANG UNIVERSITY**

- School of Applied Digital Technology
- Major in Software Engineering.

**Expected Graduation: 2026**

## SKILLS

**Programming Languages**

- Golang
- Typescript
- Dart
- Java
- Python
- C#

**Frontend Frameworks**

- React
- React Native
- NextJS
- Vue
- Flutter
- Angular

**Backend Frameworks**

- Echo
- Express
- Spring Boot
- Nest

**Database**

- MySQL
- Firebase
- PostgreSQL
- SQLite
- MongoDB

**Infrastructure & Tools**

- Terraform
- Kubernates
- Docker

## LANGUAGES

- Thai (Native)
- English (Intermediate)

## PORTFOLIO

- 🌐 https://klavivach-portfolio.vercel.app/

## PROFILE

I'm a fourth-year Software Engineering student at Mae Fah Luang University, focusing on full-stack development and learning cyber security

## WORK EXPERIENCE

### Frontend Developer (HLLC 2025)

Mae Fah Luang University — May 2025 – August 2025

- Developed and optimized the React Native mobile application, including interactive map , QR code scanning, and coin-hunting features used by 1,000+ students during events.
- Designed the database schema and collaborated with backend developers to ensure the data structure aligned with system requirements.
- Assisted in refining backend logic to improve feature consistency with frontend needs and user requirements.
- Contributed to the e-voucher system and sponsor module by providing database and integration feedback.
- Worked closely with cross-functional team members (backend, UI/UX, admin dashboard) to deliver a complete mobile platform.

### Frontend & Backend Contributor (HLLC 2024)

Mae Fah Luang University — May 2024 – August 2024

- Built Admin Dashboard (Vue.js + TypeScript) for user, event, and system management.
- Contributed to reporting system backend for usage analysis and monitoring.
- Assisted in Lamduan Management module design, integrating database with frontend workflows.

## PROJECT EXPERIENCE

### Yakkaw Mobile Application
3RD - YEAR / 2024

FullStack Developer

**Key Contributions:**  🐙 github.com/frank1nz/Yakkaw-Mobile-Application

- Contributed to building the mobile app's user interface with a focus on usability and smooth user experience.
- Developed key features such as real-time updates, and notifications, improving overall app functionality.

**Stack:**
- React Native
- MySQL

### Sport Complex Management
3RD - YEAR / 2024

Tester & FullStack Developer

**Key Contributions:**  🐙 github.com/6531503042/Sport-Complex

- Payment System Integration
- Payment Page Development
- Payment Route Management

**Stack:**
- Echo (Golang)
- gRPC API
- MongoDB
- NextJS (Typescript)
